## WEEKLY LETTER FROM THE CAPITAL

Perhaps this has been the most tragic week in Edmonton for a long time. Crime and accident have left the mark of horror and suffering on the page of its record.

**Deaths and Accidents**  
The week opened on Monday last with the shooting down of a defenseless woman by her jealous friend in the presence of her 18 year-old son, on the street just behind the Journal building on Macdonald drive. Other sad happenings, including the death of a C.N.R. Engineer, James Hallett, and his fireman, John Colford, both of Edmonton, when the engine turned over due to a slide in the embankment east of Sanguid, Alta. Automobile accidents that were fatal, and at least two suicides were reported on the pages of the press casting a gloom over the city and adding to the tragedy of the day.

**Civic Elections**  
Just at present citizens in the Capital are turning their attention to the forthcoming civic elections. Not less than four candidates are in the offing for the mayoral chair and the campaign promises to be lively before it is ended. To use a hackneyed phrase, "the political pot is beginning to bubble before it boils." It is too early, even if it was wise to make any prediction of the probable result.

**New Branch Lines**  
Perhaps the outstanding news of the week as far as the interest and welfare of the province as a whole is concerned has been that which came over the wires from Montreal, Saturday morning—that the two railways heads, Sir Henry Thornton and Mr. E. W. Beatty, of the C.N.R., had jointly issued the announcement that important railway extensions would be commenced in 1930.

The new branch lines to be built are on the northern Alberta railways from Hythe to Rolla in the Peace River country, and from Fairview westerly a distance of 15 miles. The first named branch includes a stretch of 50 miles. To meet the traffic needs of the north country the directors of the Northern Alberta railways have recommended that these branches be actually commenced this year as soon as possible.

Edmonton business men, government officials and others were gratified with the announcement. It is felt that the benefits of the new extensions would accrue to the whole province, north and south alike. The opening of the great areas of land in the north country is sure to bring greater prosperity and trade to the province as a whole.

**Premier Takes to the Air**  
During the week Premier Brownlee has been giving a practical illustration of the value of air travel to cabinet ministers and others whose business demands the saving of time. He flew from Edmonton to Calgary in the large new Bellanca plane of the Commercial Airways, Limited. In speaking of the experience he predicts a much increased use of air travel by business men in future. He was enabled to keep at work in his office at the Parliament Buildings until a short time before leaving for the south and made the trip to Calgary from the Capital in 95 minutes. This he points out was a tremendous saving of valuable time.

**Hen. MacKenzie King's Visit**  
This coming week Edmonton citizens are looking forward to the visit of Rt. Hon. MacKenzie King, premier of Canada, who will deliver an address here on his speaking tour of the West. Mr. King is to be accompanied by at least two cabinet ministers. Hon. Charles Stewart has been in the city and has visited his constituency in West Edmonton, where he will seek re-election he declares. During this week he has visited and spoken at Morinville, Leduc and Riviere Qui Barre. These visits are of interest to citizens generally regardless of party affiliations.

**Natural Resources Conference**  
Another matter of importance to the province at large has been the conference on the natural resources situation between Premier J. T. M. Anderson and Premier Brownlee which has been perhaps the outstanding political event of the week. The Alberta Farmers party cabinet honored the Saskatchewan Conservative Union premier at a banquet on Sat-

## CHURCH NOTICES AND ACTIVITIES

**UNITED CHURCH NOTICES**  
Services next Sunday at:  
Strawberry Plains — 11 a.m.  
Alma Mater — 3 p.m.  
Irma — 7:30 p.m.

The country people north of town are asked to attend the Rally Service at Alma Mater school. We would like the people of Ross and Roseberry and others to hear Mr. Woods at this service. He will also speak at Strawberry Plains in the morning.

In Irma, the evangelistic meetings will continue through the week—at 7:45 till Friday, Nov. 15th. We want all our people to get Mr. Wood's message. In these days when there is so much carelessness and drifting, we need such messages of Christian truth. Everyone is cordially invited to these services.

### EVANGELISTIC SERVICES

#### IN UNITED CHURCH

The Rev. T. A. Woods launched his campaign in the United Church last Sunday. The church was crowded, every available inch of space was occupied. His message was thoroughly worth while. He showed that the Christian Religion had a definite social application and that no one could make good one's claim to be a Christian if there was no evidence of deep interest in the welfare of others and a readiness to serve. He made a strong plea for the life of service.

He followed this message by showing that one, to be a Christian, must begin somewhere; he must "go through" the gate. This is a definite experience — a beginning of a new life. This is not unreasonable, for to join a lodge one is asked to "go through" something; the same is true of every phase of life. Decisions are made to be a doctor, lawyer, teacher, etc., and then preparation or "going through" the requisite course of study. God is not unreasonable in His requirement of us that we must "go through" something, that we must make a decision, to have that experience that Jesus called "the New Birth."

Mr. Wood's has a sane gospel message and his singer, Mr. Kerns, is most successful in rendering the gospel truths in song. Gifted with a splendid baritone voice, he is making a real contribution to these services. The evangelistic meetings are open to all and will continue till Friday, Nov. 15th.

### TENDERS

Tenders will be received at the office of the Secretary Treasurer, Village of Irma, up to and including Saturday, November 16th, 1929. Sealed bids on the Old Sidewalks consisting of 7 ft. 2 x 6 planks and stringers now located at the rear of the Fire Hall Lot 8 Block 8, Village of Irma. Lowest or any tender not necessarily accepted.

Chas. Wilbraham, Sec. Treas.

urday following the conclusion of the conference. No statement regarding the agreement for joint action by the premiers has been issued up to Saturday night, but one is promised for the first of the week.

Premier Anderson expressed the opinion on Friday that the two provinces will reach a satisfactory agreement, not only on the natural resources question but on several other matters of importance under discussion between the two governments. The conference has been shared by the two premiers and the Attorney-Generals of the two provinces — Hon. J. F. Lymburn of Alberta and Hon. M. A. MacPherson of Saskatchewan.

It is felt certain that a common ground will be reached for the presentation of the case of the provinces before the cabinet at Ottawa.

#### The Weather is Fine

But there is still one other common topic of conversation in the Capital city as elsewhere to mention—the weather. It has been lovely, clear, sunny, wonderful, up to the present, but winds are blowing and there is a suggestion of snow in the air today. Winter with its mantle of white is only just around the corner it would seem. But the hearts of men are stout to face its hardships and there is a spirit of optimism abroad that augurs well for the next year.

## NEWS ITEMS FROM KINSELLA

Mr. and Mrs. Ansell and Mr. Third spent Sunday at Killam.

The United Church held their Chicken Supper on October 28th. There was a good attendance and a very good program. Rev. Bainbridge of Viking was the speaker. The proceeds from the supper was \$48.00.

The Ladies Aid will meet at the home of Mrs. Jack Allen on Thursday afternoon at 3 p.m. November 14.

Mrs. William Kerns spent a couple of days last week at Wainwright.

Another boxing match being arranged (From The Viking News)

The Elks boxing committee are making arrangements to hold another boxing match on Wednesday, November 20th, when they are bringing together Curly Kid Archibald and Art Bryan Prudholme as the main event. Prudholme holds a decision over Curly Kid, but the Kid thinks he can reverse the decision as he has more experience since the last bout with Prudholme. Good preliminaries are being arranged. As soon as word is received from Prudholme the affair will be widely advertised.

### HIGH CLASS ENTERTAINMENT GIVEN

An entertainment of a high class was held in Kiefer's hall on Monday evening, November 4th, and enjoyed by a large and appreciative audience.

It was given under the auspices of the Women's Auxiliary of the Anglican Church. Owing to adverse weather conditions the hall was not so well filled as may have been expected, but many thanks are tendered to those who did brave the elements and attended. The first item on the program was the singing of "O Canada" by the audience, followed by the chairman, Rev. Trendell, giving a short talk. Mrs. Bert Long then played an Overture which received great applause. Next was a reading by Mrs. Laxton, followed by an instrumental selection by the Barton group. A vocal solo was then given by Mrs. Pryce Jones who was called upon to give an encore which was greatly appreciated. Mrs. J. A. Waite gave a reading, and Mrs. Geo. Hudson rendered a vocal solo which was much applauded and encored. Mr. T. Sanders and son Edwin then played several Old Time tunes on the guitars and were brought back for more. The next was a vocal solo by Mrs. J. R. Whyte which was very sweetly rendered. The stage was then set for a sketch by Mrs. Batchelor, Mrs. Wm. Steele and Mrs. Adams, who played the part of widows and would-be widows to perfection. Miss Price was next on the programme with a piano solo after which Mary Thurston gave a reading. A few old time favorites were then played upon the violin by Mrs. H. Prothero, who was encored several times to the satisfaction of all. Rev. Trendell then gave two vocal solos. The singing of "God Save the King" brought a very pleasant programme to a close, after which the floor was cleared and young and old tripped the light fantastic until the wee small hours.

The Women's Auxiliary wish to thank all those who contributed towards making the entertainment a profitable success, especially the Coulman Orchestra, the Barton Orchestra and all the ladies who contributed to the programme.

### IRMA PUBLIC SCHOOL REPORT

Standing for Senior Room September and October.

Grade VIII—Elsie Stimson 89 per cent; Mary Jones 86, Stanley Gultner 84, Dorothy Glasgow 74, Clarence Barber 71, Murray Gultner 69, Samuel Congdon 62, Bessy Sharky 61, Mary Stimson 60.

Grade VII—Marion Levitt 87, Ray Locke 87, Nina McGee 86, Ralph Schonert 81, Dolton Herbert 79, Jack Peterson 75, Edward Thurston 50, Benny Maguire 51, Leslie Robertson 36.

Grade VI—Aletha Knudson 90, Ina Matheson 87, Wm. Milburn 87, James Matheson 82, Ralph Congdon 78, Eileen Geeson 67, Albert Glasgow 67, Harold Barber 62, O. Lattner 47.

Grade V—Archie Levitt 87, Fern Stimson 87, Fred Thurston 85, Roy Blade 84, Robert Gultner 81, Eileen Robertson 76, Dorothy Geeson 62, Florence McDowell, Principal.

## The Wastebasket

Something to worry about—Of 1000 men who marry, 332 marry younger women, 579 marry women of the same age, and 89 marry older women.

Hint to married men—Never twit your wife because of her foolish actions. But for them the chances are she wouldn't have married you.

"I want to see the cheapest coat you have," said a lady customer in a local store. "Something a little better than the one you have on?" suggested the clerk.

Heard at the dance: "Would you mind if I danced this next one with Bill?" "Not at all, not at all!" "Well, you needn't say it so enthusiastically."

A beauty expert says that when a woman reaches twenty-five she buys her beauty over the counter. Some of them seem to have missed the counter.

A careful observer says that the average man thinks his bump of generosity is at least three times as large as it actually is.

"You say that we will have wings in the next world," said a smart young fellow to an evangelist at the close of a meeting at Wainwright recently. "What I would like to know is how I'm going to get my coat on over my wings." "You don't need to worry about that," the evangelist replied, "what you should worry about is how you are going to get your pants on over your tail."

### MONDAY IS A HOLIDAY

Monday, November 11th, is a public holiday throughout the dominion, and all the stores and business places will be closed. It is being observed as Armistice and Thanksgiving day combined.

## WEEKLY REVIEW PROV. MARKETS

### CATTLE

**Beef**  
Edmonton reports cattle receipts heavier than expected and buyers indifferent this week. Choice heavy steers \$6.75@87.

#### Feeders & Stockers

Demand in this market is slightly improved. Feeder steers are bringing \$5@6.75; steers from \$5@6.50.

### HOGS

Edmonton reports select bacon bringing \$9.75@10.25; bacon \$9.25@9.75, and butcher hogs \$8.90@9.40, this week.

### Sheep

Edmonton reports sheep prices as follows: Yearlings bringing \$6.50@8.25; ewes \$4.50@6, and the lambs from \$5@6.

### Grain

The wheat market held steady throughout most of the session Wednesday at Winnipeg, until last hour when a strong bull market at Chicago caused an advance of over 4c. Buying at Winnipeg was chiefly confined to local traders.

### Butterfat

Quotations this week are: Special grade, 38c; first, 36c, second, 33c, at country points, with centralizers paying the same price f.o.b. shipping point.

#### Poultry — Eggs

Receipts are picking up, but birds are not of very good quality.

#### Hay — Greenfeed

Hay—Timothy and upland offerings fair. Upland bringing \$12@12.50, and timothy \$19 at country points. Good demand at city markets. Receipts lighter. Upland making \$15 per ton, delivered.

Feed Oats—Top grades are in demand; receipts light. Quoted at 55c@60c.

### Wool

Quotation of 14c prevails this week. There is not much doing in this market, as open weather conditions are handicapping the trappers.

## M. D. Battle River Notices

### MUNICIPAL DISTRICT OF BATTLE RIVER No. 423.

Notice is hereby given that the assessment roll of the said Municipal District made for the purpose of the Alberta Assessment Commission has been prepared and will for forty days be open to inspection at the office of the Secretary Treasurer of the Municipal District from 10 o'clock in the forenoon until four o'clock in the afternoon on every day not a public holiday except Saturday and on that day from 10 o'clock in the forenoon until two o'clock in the afternoon and that any person who desires to object to the entry of his name or that of any other person upon said roll or to the assessment of any property or to the assessed value placed upon any property, must within forty days after the date of this notice lodge his complaint in writing with the Secretary Treasurer of the Municipal District.

Dated this 29th day of October, 1929.

R. J. TATE, Sec. Treas.

### SALE AND REDEMPTION OF IMPOUNDED ANIMALS (Sec. 48)

Notice is hereby given under Section 48 of The Domestic Animals Act (Municipalities) that —  
Dark Brown Mare about three years old, small spot on face, two white hind feet, was impounded in the pound kept by Robert Tod, located on the S.E. 28-48-8-4, on the 14th day of October, A.D., 1929, and that the said animal was sold on the 24th day of October, 1929, to M. Resnais of Salteaux, Alberta.

and that said animal may be redeemed by the owner or by his agent within a period of thirty days from the publication of this notice in The Alberta Gazette, upon payment of all fees and costs due to the municipality and the purchaser of said animal.

Arthur Curtis, Sec. Treas. of the Municipality of Buffalo Coulee No. 453, Post Office, Salteaux, Alberta.

### CHANGE IN TRAIN TIME

Commencing November 17th a new time card will be in effect on the C. N. R. main line. No. 1 fast train going west will pass through Irma at about 7:30 P.M.; The local passenger No. 77 going west will leave Irma about 3:50 P.M. instead of 4:45 P.M.; No. 2 going east will pass Irma at about 11:03 A.M., and No. 78 the local passenger from Edmonton will arrive at about 12:40 noon.

### TENDERS

Tenders will be received till Tuesday November 12th for the delivery of eight cubic cords of dry stove wood to be delivered by December 1st. Also for eight tons of good coal to be delivered to Crescent Hill School. — W. T. Steele, Secretary, Irma, Alta. It

### POPPY IN EACH COAT IS SLOGAN OF LEGION, 1930

"A poppy on every coat" is the slogan and aim of the Canadian Legion this year for Poppy Day, November 9th, according to officials of the Legion, who are planning to make cash receipts. Sales to stores and organizations of wreaths and sprays will take place from Tuesday to Saturday, and the pre-sale orders this year are already nearly double those of last year.

The manufacture of the poppies to be sold provides permanent work for a large number of disabled ex-servicemen in the government operated factories, and everyone is stamped with the trade mark "Vetcraft" to ensure that all supporters get genuine flowers and the money they subscribe goes to the fund.

## The National Value of Radio

When the automobile began coming into use 25 or 30 years ago, it was looked upon as a luxury for the rich, another means of providing for their entertainment and catering to their enjoyment, but not to be regarded as a new means of transportation for the great masses of the people. Yet within the short span of a quarter of a century the automobile has revolutionized our habits and modes of living, until today the family that does not own a car is the exception, rather than the rule. At first it was the common practice to criticize the farmer who bought a car; now it is recognized as a practical farm necessity. What was to be a plaything of the rich has become the most popular means of transportation, and is seriously challenging the railways as carriers of freight for the shorter hauls. The automobile, too, has altered all preconceived ideas in road-building and the value and necessity of good roads.

Within even more recent years has come the discovery of the radio. This, too, was accepted at first as more or less of a plaything, something to provide pleasure in the form of musical entertainment in the home. Its value in this respect, especially in rural homes, and in towns and villages not enjoying the advantages which the large cities possess in the way of concerts and theatres, was quickly appreciated. Then came the broadcasting of grain and other market quotations, weather forecasts, live news bulletins, and information of general interest and value to the rural dweller, hour and day in advance of the time he would otherwise receive the same. As a result, within recent years, radio has been installed in tens of thousands of homes.

In a very notable way the value and influence of the radio has been extended in the last two or three years through the linking up of a number of stations through which programmes of exceptional merit are made available to all parts of the continent, even the world. One such chain after another has been created, but beyond one or two attempts, notably the Diamond Jubilee broadcast from Ottawa, in 1927, Canadian listeners have not had the benefit of Dominion-wide Canadian programmes, but have had to depend largely on United States stations.

All this is now changed, and this year Canada is being favored with Dominion-wide broadcasts, sponsored by large Canadian corporations, equal in every respect to the best that is presented in the United States. These Canadian programmes are now available several nights every week and the finest symphony orchestras and artists of the large Eastern Canadian cities can be heard in Western Canada homes. Not only so, but some of the outstanding musicians of Great Britain are being brought to Canada to broadcast over these Canadian chains.

In the past when outstanding statesmen like Rt. Hon. Ramsay MacDonald visited Canada, a comparative small number of people in Ottawa, Toronto or Montreal had the privilege of hearing him. On his recent visit to Ottawa, when he was the guest of the Government of Canada, at a late dinner, hundreds of thousands of Canadians from Halifax to Victoria, listened to his inspiring address in the Houses of Parliament. His plea for international goodwill and world peace, his insistence that these could only be achieved through a "will to peace" on the part of the people themselves, was listened to by hundreds of thousands, and received by them as a direct personal message, couched in homely language, and reinforced with all the sincerity of which Mr. MacDonald is capable. In other words, the Prime Minister of Great Britain was enabled to talk, not merely to President Hoover and Premier Mackenzie King, but to untold millions of people in the United States and Canada.

The national, yes, international, value of such addresses cannot be correctly estimated. The radio has become one of the most powerful factors in breaking down the suspicion, the ill-will, the fears, which exist and develop across international boundary lines. The fact that statesmen can thus appeal direct to the masses of the people, their own and those of other nations, must prove a tower of strength to the cause of true democracy and better world understanding.

Even so, the radio is still in its infancy. What wonders it will yet unfold to us in five, ten or twenty years, can hardly be imagined. It may bring improvements so vast, including television and the broadcasting of moving pictures and current happenings, and other developments as to make the radio achievements of today seem very crude indeed.

### An Interesting Collection

Valuable Documents Presented To Library of Toronto University

A collection of historic documents, illustrations, maps, autographs and letters has been presented to the library at the University of Toronto by Henry Sprouatt. It includes the first example of typography in Upper Canada, a speech made by Sir John Graves Simcoe, a proclamation made at Newark in 1795, and letters from Sir Isaac Brock, William Lyon Mackenzie, Bishop Strachan and many other Canadians famed in history.

### Origin Of The Farthing

The English farthing gets its name from "fourth thing." Pennies, hundreds of years ago were made of softer metal than today. They were also marked deeply across and down. This was that they might be broken in two, if something was wanted that was only a "half-penny." This again could be broken for something costing the fourth of a penny.

### Earache

Heat an iron spoon. Place four drops of liniment and four drops of sweet oil in it, mix and put one or two drops in the ear.

W. N. U. 1500

### A New Musical Device

"Theremin" Has Tonal Quality Similar To Cello Or Violin

Now you can be a musician without ability. All that is necessary is to hum a tune, wave your hands over a gadget created by the Radio Corporation of America, and you get a fine musical effect.

The new device is called the "Theremin" and has a tonal quality similar to the cello or violin. It was displayed at opening of the radio world's fair recently, having a place in the exhibit because it is operated by two antennae.

### LIFE WAS A BURDEN

Health Restored Through the Use Of Dr. Williams' Pink Pills

"I am writing to express my gratitude for what Dr. Williams' Pink Pills have done for me," says Mrs. W. J. Dowling, Tottenham, Ont., and further says: "I was so badly run down that I felt that life was a burden. The doctor said my trouble was due to poor blood, but his medicine did not help me. My food was all water, my lips bloodless and at the least exertion my heart would palpitate so violently that I could hardly lie down. My feet and legs would swell and cramp, and all my friends thought I was in a decline. In this condition I was urged by a friend to try Dr. Williams' Pink Pills. I got three boxes, and to my delight, by the time I had used them I began to feel better. I got a further supply and kept on taking them. Daily I felt myself growing stronger. The color returned to my cheeks and lips and I felt a new interest in life. To sum up I can now say that I am feeling fine, for which I give the credit to Dr. Williams' Pink Pills, which I strongly recommend to all weak girls and women."

A useful book, "Building Up the Blood," will be sent free on request by the Dr. Williams' Medicine Co., Brockville, Ont.

Dr. Williams' Pink Pills are sold by all druggists or will be sent by mail, post paid, on receipt of price 50c. Try them today.

### Demonstrates New Form Of Rejuvenation Operation

American Surgeon May Throat Light On Eternal Quest For Youth

Man's eternal quest for youth held the attention of a group of surgeons attending the American College of Surgeons' clinic recently, after Dr. V. D. Levenson, Chicago, demonstrated a new form of rejuvenation operation. Although the college has not given official sanction to this type of surgery, the operation is causing comment.

Phlebophlebostomy, meaning "vein to vein" in the surgeon's vernacular, forms the basis of Dr. Levenson's new technique. The surgeon joins certain veins in the lower abdomen, causing the blood to follow a different course and thus, it is claimed, revitalizing the glands. The operation does not involve the transplanting of glands or the use of glandular extracts.

Dr. Levenson, in 1922, performed a rejuvenation upon Harold F. McCormick, prominent Chicagoan. The surgeon said that his method had passed the experimental stage and has been used on many patients.

Dr. William A. Osborne, Melbourne, Australia, dean of the faculty of medicine and chairman of the case research committee of the University of Melbourne, was amongst those awarded honorary fellowships.

Feet Sore? Use Minard's Liniment.

### A Big Yield

The farm of George Shields, east of Raymond, Alberta, yielded fifty bushels of Marquis wheat to the acre on a ten acre field. The wheat graded No. 1 locally. Several other farmers of the neighborhood have yields of 40 bushels to the acre.

### Her Little Boy Was Very Ill With Summer Complaint

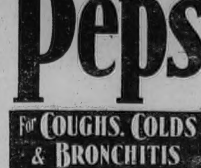

Mrs. Ray Fisher, Lebert, Sask., writes: "For over a month, last summer, my little boy was suffering from summer complaint. He got so bad there began to be traces of blood in his stool, and anything he ate would not stay on his stomach very long. He became so weak he could not stand up. A neighbor recommended

was half used he was the same happy, healthy boy he was before he took sick."

Put up only by The T. Milburn Co., Ltd., Toronto, Ont.

### The Breathable Tablet

### Far North Is Favored

Air Mail Rates To Arctic Cheaper On Continent

To Canada's far northern outposts, Aldavik and Herschel Island, once absolutely remote from communication of any kind during the long, white months of winter, aeroplanes, manned by aces of treacherous aerial trails, soon will be bringing their way on regular schedule, carrying to the trader, hunter and trapper, mail and merchandise from the "outside" and returning speedily with the products of the great wilderness.

Commenting on the proposed aerial service, which is scheduled to start with the departure of the first plane from Edmonton on November 26 northward bound, Thomas Bower, postmaster in Winnipeg, points out the new air-mail parcel rates will be the cheapest service of the kind in America. There is, of course, no competitive service to consider and this is the paramount factor in the low rate. It will be cheaper to send a parcel from Winnipeg to Herschel Island by air than from Toronto or Montreal. The rates range from 50 cents per pound to Fort Providence to \$1.00 per pound to Herschel, as compared with the charge of \$1.55 from Eastern Canada.

To the distant posts of Akilavik and Herschel the air-mail schedule calls for three flights, November 26, January 21, and March 25, while to Fort and trading posts "in between" weekly and monthly service, depending on distance, will be maintained.

Ready-Made Medicine.—You need no physician for ordinary ills when you have at hand a bottle of Dr. Thomas' Electric Oil. For coughs, colds, sore throat, bronchial troubles, it is invaluable; for scalds, burns, sprains, it is unsurpassed; while for cuts, sores and the like, it is an unquestionable healer. It needs no testimonial other than the use, and that will satisfy anyone as to its effectiveness.

### A Tip To Fishermen

All Fish Color Blind and Gaudy Fishes Do Not Attract

That all fish are color-blind is the assertion of Dr. Thomas Hall Shastad, of Superior, noted wild life research worker.

"The fisherman who attempts the lure of the brightly colored trout chum," Shastad declared, "is foolishly working against an established principle of nature."

"Neither black nor white exist to the wary brook trout or grayling. All colors to them are a dull gray wall."

### Sir John Martin Harvey

Appearing in Western Canada in "The Lowland Wolf" and "The Only Way"

For his latest success, which will be presented at the Grand Theatre, Regina, on Monday and Tuesday, November 4th and 5th, Sir John Martin Harvey has gone to the modern Spanish. The title is "The Lowland Wolf."

From the pen of Angel Guimera, the play presents to Sir John a remarkable chance to show talents that have not been altogether displayed on his recent Canadian tours.

The present tour of Sir John across the Dominion will be the sixth All-Canadian Tour that the actor has undertaken. On this occasion he will give the farewell performance of his greatest play "The Only Way," which has won so deep a place in the affections of Canadian players. There is little need to dilate upon the performance of Sir John Martin Harvey as the absolute Sidney Carton, who lays down his life for the lady he loves. But probably all those who have not seen the play, and also all those who have already seen it, will be present at these farewell performances during the present Canadian Tour. Miss de Silva will appear in her original part of Mimi, and Sir John will bring with him a particularly strong Company, which includes many favourites who have already made themselves popular in the Dominion, and will be warmly welcomed when they appear at the matinee and night of Wednesday, November 6th.

Pacific University, Oregon, was founded in the pioneer days of 1849. Step falling hair with Minard's Liniment.

### Made North-West Passage

Attempt Of Hudson's Bay Fur Trading Ships Was Successful

Three ships engaged in the fur trade and owned by the Hudson's Bay Company have between them forced the dreaded northwest passage, according to news reaching the Hudson's Bay Company offices at London, England. The ships are the "Bay of China," "Fort James," and "Fort MacPherson." The "Bay of China" left Vancouver last July and sailing through the dangerous Behring Strait, reached Point Barrow on July 24, and Cambridge Bay on South Victoria Island on August 25.

Last year the schooner Fort James, under the command of Captain Bush, sailed from Montreal and having wintered in the ice, began with the coming of spring a long fight to reach King William Land. The vessel was joined there by the "Fort MacPherson," which cruises within the Arctic Circle as a supply ship for trading posts and exploration purposes. The Fort MacPherson had sailed from Cambridge Bay, the farthest point reached by the "Bay of China."

In this way, three vessels contracted to do what have been impossible for one alone to accomplish. During the winter, locked in the ice, those aboard the "Fort James," endured great hardships, and for most of the time were actually prisoners in the frozen waters. It is thought that the successful attempt to force this passage may mean that skins will be brought more quickly to Britain than in the past. An official of the Hudson's Bay Company declared that it remains to be seen whether such a journey is a commercial proposition. If this proves to be the case, the dangerous voyage from Vancouver through Behring Strait will be avoided.

### High Grade Crop

According to the manager of the Canadian Wheat Pool, which markets the larger percentage of the wheat crop of Canada, most of this year's crop is grading No. 1 and No. 2, and there is so little of the lower grades passing through the elevators that hardly enough of grades 4, 5 and 6 can be found to make up composite samples for grading purposes.

Mothers can easily know when their children are troubled with worms, and they lose no time in applying a reliable remedy—Mother's Worm Expeller.

### To Establish Sheep Ranch

It is reported that a sheep rancher in Nebraska has bought eighteen sections of land at Pinning, Alberta, along the river, upon which he intends to set out a flock of sheep numbering about 20,000 next spring.

Wife (who has caught her husband squandering a penny on a fortune-telling machine): "H'm! So you're to have a beautiful and charming wife, are you? Not while I'm alive. Horace—no while I'm alive."

## Don't dose a Child's Cold

CONTINUAL dosing upsets children's delicate stomachs. Vicks is applied externally and therefore cannot disturb the digestion. It acts in two ways:

(1) The body heat releases the ingredients in the form of vapors which are inhaled.

(2) At the same time Vicks "draws out" the soreness like a poultice.

It's 2 ways at once

### Discovers New Anaesthetic

Toronto Doctor Mayes Important Announcement At Meeting In Chicago

Cyclopropane, a new anaesthetic gas which does not interfere with normal functioning of the body, was described by G. H. W. Lucas, of the Toronto University, Department of Pharmacology, at the eighth annual congress of anaesthetists in Chicago.

Lucas said the gas was in an experimental stage, having been administered only to animals as yet, but expressed great hopes for its early adoption by hospitals.

Conquers Asthma. To be relieved from the terrible suffocating cough to asthma is a great thing, but to be safe guarded for the future is even greater. Not only does Dr. J. D. Kellogg's Asthma Remedy bring prompt relief, but it introduces a new era of life for the afflicted. Systematic inhaling of smoke or fumes from the remedy prevents re-attacks and often effects a permanent cure.

The Oldest Barber Shop in the world is run by a barber named Festa, at Islington, London, England. The walls, ceiling and floor are covered with thousands of small pieces of glass, painted all colors of the rainbow and in all different shapes. The total number of pieces of glass is about quarter of a million.

Feldspar In Canada All the feldspar mined in Canada is of the potash variety known as orthoclase or microcline. Soda feldspar (albite) is known to occur but there is little demand for this variety and none is mined.

Alberta Wheat Pool Elevators The Alberta Wheat Pool's 468 elevators are valued at \$6,000,000. Eighty-five elevators were built this year and 33 purchased.

## Dominion In Very Forefront Of Nations Adopting Aeroplane For Purposes of Business and Industry

An Eastern paper remarks that Canadians east of the Great Lakes are too much inclined to believe that, at the present stage of the national development, they represent the extreme of progress and that the west's claim to distinction lies more in potentialities than in actual achievement. Yet in one great, and the latest, side of that development, the east is mainly responsible for the current, thoroughly erroneous conception of Canada's proper place in the field of aviation. In fact, many benighted Easterners must have learned with unfeigned surprise that in the year 1928 more passengers were carried by airplane in Canada than was the case in the United States, and that this superiority also extended to the volume of freight transported. This rather astonishing piece of information was recently supplied by the New York Times, with the comment that, as the Dominion's flying record is largely established out of sight of reporters and camera men, only occasional flashes reveal the expansion which has placed Canada in the very forefront of the nations that are adopting the airplane to the purposes of business and industry.

It is surprising, remarks the Times, to learn that Canada last year carried 74,689 passengers by plane, and 2,464,632 pounds of freight, Eastern Canada however, contributing only a comparatively minor proportion to this business of the airways. The only regular passenger route in the East is between Montreal and Albany, New York, though air-mail routes are more numerous and are steadily being extended to link up isolated and outlying points with civilization. But Easterners are not, generally speaking, developing air-mindedness, most of the 74,689 passengers mentioned by the Times being carried in areas where railways are not available and where the only method of transportation is a dog team in winter or a canoe in summer.

On the other hand, the New York paper notes, miners and prospectors have been quick to recognize the advantages of air-flight, and in northern Ontario and northern Manitoba freely use the airplane, thus saving weeks, or even months, when journeying to remote or inaccessible regions. Governments, too, are finding the airplane an invaluable assistant in the survey and plotting of the bleak and inhospitable region of the sub-Arctic, and before long few parts of the north will remain that have not, at least, been observed. Forest patrolling is now, of course, an old story, but the airplane as a means of fire protection and fire prevention is each year becoming of greater importance. In short, the development of the northern belt of the Dominion has been immensely expedited by the utilization of airplanes. One Winnipeg company is cited as having last year carried over 10,000 passengers, accelerating incalculably the exploring of mineral areas and knowledge of topographical conditions.

### Alberta Co-Operative Association

Membership In Lethbridge Organization Is Increasing Rapidly

At the close of its ninth year of business, the Southern Alberta Co-operative Association, Lethbridge, had 1,635 members in place of the 40 provisional members of 1923. Five hundred new members came in last year when business aggregating \$879,345 was put through. Produce marketed took 660 cars while stock handled included 28,700 hogs and 6,000 sheep.

### Vikings Ran Smelters

The vikings ran smelters. The remains of a chieftain's house about 1,000 years old have been uncovered on the island of Gotland. The building was about 185 feet long. Lumps of burned iron were found with knives and arrowheads.

"Have you heard that Millers are having a divorce?"  
"Why?"  
"For love. They are afraid their love may not last." — Musket, Vienna.

W. N. U. 1809.

### Increased Market Likely

Japan Will Buy More Canadian Lumber Says New Minister

Every prospect for an increased market for Canadian lumber in Japan is seen by Tetsuoka Tokugawa, first Japanese minister to Canada, who passed through Winnipeg recently on Canadian Pacific lines for Ottawa. Importation of pulp wood, he said, would form the major part of greater business for the Canadian trade. The minister will return to the west shortly after presenting his official credentials to the Governor-General. He intends to study every possible point of contact between Canada and the flowery kingdom with a view to closer relationships, economic and otherwise.

### A Manufacturing Nation

Canada is forging to the front as one of the leading manufacturing nations of the world. Half a century ago the Dominion exported manufactured products to the value of \$3,000,000. Last year she exported more than \$450,000,000 worth of manufactured products and nearly \$200,000,000 worth of partly manufactured.

### MODIFIED PRINCESS LINES

A fascinating new model with distinctive flared treatment. Typically Parisian, with its chic swooping lines. It is brown sheer velvet with criss-cross collar and deep flaring cuffs in exquisite shade of chartreuse green crepe satin accented by pleated ruffle and buttons of the brown velvet.

Style No. 697 that is designed in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust, can be copied exactly at an amazingly smart amount.

The curved neckline adds charm and interesting length to the silhouette which makes it so suitable for larger woman.

It is very chic in dull black silk crepe with collar and cuffs in egg-shell shade. Black crepe satin is effective with the hip yoke and flaring skirt sections, collar and cuffs cut of the dull surface of the crepe, and makes a very serviceable daytime dress for the women of limited budget.

Hunter's green cotton crepe with beige contrast, printed sheer velvet in raspberry red tones, Copenhagen blue silk crepe and Lucerne blue sheer velvet charming selections.

Pattern price 25 cents, in stamps or coin (coin is preferred). Wrap copy carefully.

### High Destiny For Canada

Dominion Must Be Go-Between For Britain and United States

The invitation to Canada to participate in the coming disarmament conferences is an indication of Canada's strategic position, its growing wealth and importance, and the part this Dominion must play in world affairs. Today it holds what might be called the balance of power between the United States and Great Britain. It is not too much to say that if permanently peaceful and mutually beneficial relations are to continue to exist between these two countries they will exist more easily if Canada carries out the role of interpreter.

In attempting so great a task this country is faced with no small measure of danger. The danger comes both from within and without. From within is the discord of party strife which might attempt to trifle with great issues in order to advance partisan policies. From without is the danger from the parties in Great Britain and the United States, who might set narrow national interests above the realm of square dealing.

Walking carefully and guarding against these dangers, there is no doubt that a particular and high destiny is forecast for this Dominion. — Regina Daily Post.

### Cannot Forget Their Ages

Members Of Negro Family Named For Year Of Their Birth

The Joneses will have no trouble forgetting their ages. The first grandchild of William Jones, and his wife, negroes, has appeared at the residence of 1927 July Jones, near Kingston, N.C. Children in the family have been named for the year of their birth. The new addition will be christened either 1929 July Jones or July 1929 Jones, the parents said.

Nineteen Hundred Jones is now a resident of Baltimore, while the whereabouts of 1908 November Jones is not clear.

### Minerals Are Necessary

Very Important Ingredient In Food For Live Stock

The study of the various mineral ingredients of foods in the nutritive processes of the animal is now receiving widespread attention. It used to be thought that the amount of mineral needed in a ration was so small that they need not be bothered about, but our more recent research in this subject has shown how important this factor is, both to the health and well-being of our stock, especially since the greatly increased use of artificial feeding stuffs.

### Aerial Forest Patrols

Aerial patrols of the forests in Saskatchewan in the summer of 1928 covered approximately eighteen million acres of country almost inaccessible in summer except by canoe. Sixty-one fires were detected by the aircraft.

New Zealand has over 130,000 cars apart from motorcycle and commercial vehicles, or one car for eleven persons, the same ratio as in Canada.

### Boy Scout Activities

Christmas Toy Repair Shops For Sending Out Toys To The Children Of New Settlers

Last Christmas the Boy Scouts of Canada had the rare privilege of playing Santa Claus to many thousands of children, little New Canadians. In Saskatchewan, toy shops were opened in nine centres where toys were repaired and distributed by the Scout Association to some thousands of children both of new settlers and of veterans.

Something of what this meant in happiness to the children themselves, and to their parents, was suggested by many touchingly appreciative letters. In many cases, the package, with something for each child, came almost literally "out of the sky," like old Saint Nick himself, and turned a day of dreared loneliness—with nothing for the kiddies—into a day of laughter and happiness.

This year, in addition to the remembrance of local needy children, it is hoped to again make happy at least 5,000 New Canadian kiddies on the farms. Already a list of 800 new arrivals this year on prairie farms, has been received.

Some difficulty has been experienced in regard to covering the cost of mailing the parcels. The following device has been suggested, that parcels for certain families be made up and addressed with the amount of postage required marked, and displayed in a store window along with a toy display, and a placard reading:

Santa Claus' Reindeer Need Help Step inside and help Santa Claus by paying the postage on a parcel going to the kiddies of a family of new settlers spending their first Christmas on a Canadian farm in the west. The parcels were prepared by the Boy Scouts.

### Makes Success As Farmer

Wins Cup For Best Farm In Province Of Alberta

The farm of Gustav Elgert, of Wetaskiwin, that won the trophy offered by the Edmonton Board of Trade, for the best field of wheat in the northern half of the province, as well as the cup donated by the Alberta Government for the best farm in Alberta, has yielded 46 bushels to the acre, on a 100 acre field, and graded No. 1 hard. The seed used had been developed by Dr. Seager Wheeler, of Hothorn, Sask. Elgert is another farmer who came to Canada with no capital at all and has made a striking success as a farmer.

### From the Back Seat

Turn to the right, John! More to the right. Now a little bit to the left! Too far—I told you so. Back—that's right—back a little more. Turn it! John! That's it. No! Will you ever get it? Gently. Ah, now we can sit back in comfort. Leave it there. John. I knew if I told you how to do it, you'd get station KOA.

The lichen, which appears to be one plant, is really two, one being a fungus which provides support and protection for the other which manufactures the food for both.

### AMERICAN WOMAN AVIATOR

May Halzlip, one of America's foremost women fliers, who will pilot an Eagle biplane in 1929 national air tour for Edsel B. Ford reliability trophy. It is expected some 45 or 50 aeroplanes will take-off in flight, which will cover Canada and the United States.

## Canada Now Ranks Fifth In Total Trade of World and Leads In Exports of Wheat

### A Growing Industry

Egg Production In Canada Shows Consistent Increase

Illuminating and instructive in various ways is a comparison of the quantity and value of the farm eggs produced in Canada last calendar year and the corresponding figure for each of the seven years preceding. The result reveals clearly the consistent and unbroken progress made by the egg industry in the Dominion during that period. Intelligent and unremitting attention to improving the laying ability of the hen has brought a constant increase in the average production per unit until today it is nearly 22 per cent. greater than the average eight years ago. Within that period the number of egg-producing hens on Canadian farms increased by over 32 per cent, the number of eggs by approximately 60 per cent, and their total value by well over 100 per cent.

The progress made recently in egg production has been very considerable. Imports of shell eggs in 1928 were about the equal of exports, the Dominion for the first time over a considerable span producing sufficient eggs to meet the country's domestic requirements. Consumption of eggs in Canada has increased very largely, the Dominion being the heaviest egg consumer per capita in the world. But production is rapidly coming to take care of this situation, and the outlook in this regard is distinctly bright. In the six months of 1929 imports of eggs into Canada have been, on the whole, smaller than in the corresponding months of 1928, though it is to be noted also that exports are also correspondingly smaller.

### No Doubt He Would

Woman Tells Station Porter How To Answer Questions

When does the next train for Leeds leave?" inquired the fierce-looking woman at the station.

"You'll have to wait five hours, madam," a porter told her.

"I don't think so."

"I do think so! Perhaps you know better than I do, madam?"

"Yes, my man, and perhaps you know better than I do whether I am going to travel by the train myself or whether I am merely making the inquiry on behalf of a cousin who has been spending the week-end with me, and who is at this moment packing her things, so that she could not inquire herself, but sent me to do it for her. Perhaps you'll give a civil answer next time a respectable widow asks you a question, instead of trying to show off what you know!"

"Yes, madam."

### Government Sheep Moved

Two Thousand Brought To Lethbridge From Crow's Nest Mountain

The loading of nearly 2,000 sheep, which during the summer have been pastured in the vicinity of Crow's Nest mountain, was completed lately, and they were transported from Sentinel to Lethbridge Experimental Farm via C.P.R. Arthur Newnam, assistant superintendent in charge of livestock, stated that the sheep have thrived on the splendid grazing which the mountain ranges afford. Geo. Walker, of Lethbridge, was in charge of the big flock during the summer, and was assisted by H. M. Dwyer.

### The Quebec Bridge

The Quebec bridge, world-famous structure spanning the River St. Lawrence, built primarily to carry the tracks of the Canadian National Railway's trans-continental line, now enters a new phase of usefulness through the opening of the bridge to highway traffic. Automobiles and other vehicular traffic are allowed to pass over in daylight hours only, pending completion of the work on approaches. The conversion of the bridge to a highway was carried out by the Government of the province of Quebec and is costing in the neighbourhood of \$500,000.

### Movie Tone Of Prize Cattle

Movie tone pictures are to be taken of prize-winning Alberta cattle. Mr. E. Ward Jones has announced that the Pathe News people have arranged to take pictures of some of the Holsteins from the C.P.R. Supply Farm at Strathmore, which have won prizes at many exhibitions throughout the West. What is worrying Mr. Jones is how he is going to make them "baw" for the admirers.

### Canada ranks high in production and international trade among the leading commercial nations of the world. In production she leads the world in output of newspaper, nickel, asbestos and cobalt; she occupies second place in the production of wheat and third place in the output of lead and gold.

In export-trade she leads the world in exports of wheat, newspaper, nickel, and asbestos; she occupies second place in exports of wheat flour, and third place in exports of wood pulp.

According to most recent comparative statistics available for the calendar year, 1928, Canada occupied fifth position in aggregate trade as also in imports and exports among the leading commercial nations of the world; second position in export and total trade per capita; third place in favorable trade balance and second place in favorable trade balance per capita.

These striking facts are revealed in the thirty-seventh annual report of the department of trade and commerce compiled by F. C. T. O'Hara, deputy minister.

The report reveals a decided trend towards increasing direct trade with foreign countries rather than through the United States or the United Kingdom as formerly; increased percentage of exports of fully or semi-manufactured goods and increased utilization of Canadian ports for both incoming and outgoing trade.

Mainly responsible for this trend in Canada's trade is the subsidizing of steamship lines operating from Canadian ports to South America, Australia, New Zealand, the Fiji Islands, West and South Africa, also to Newfoundland and Canadian coastal routes. New trade treaties with leading seafaring nations of the world have also benefited Canada's foreign trade.

The expenditure on mail subsidies and steamship "subventions" during the past fiscal year totalled \$1,026,376, an increase of \$181,752 over the preceding fiscal year. The service to South and West Africa carried over eleven million dollars worth of Canadian goods to ports in those countries during the past fiscal year. During the first seven months that the service to South America was in operation nearly twenty thousand tons of Canadian cargo was carried. Since then the trade on this route has greatly increased.

To keep abreast of the ever-changing tariff regulations of commercial nations of the world, the department has inaugurated a foreign tariffs division and inaugurated exporters and importers' directories.

### Bring Out British Boys

Saskatchewan Government Has Decided To Increase Quota Next Year

Saskatchewan has decided to increase its quota of British boys under the Government aid scheme by which the Imperial, Federal and Provincial Governments, each bear one-third of the cost, according to Hon. J. F. Bryant, who pointed out that during the past year 100 boys have been absorbed under that scheme and that the coming year the quota would be doubled.

### Troubles Of An Editor

The late Archbishop Temple was a life-long teetotaler. At a meeting in the country he once had occasion to say "that he had tried all his life to induce men to drink in moderation and had failed utterly." The next morning the local paper reported him as having said: "He had tried all his life to drink in moderation and had failed utterly."

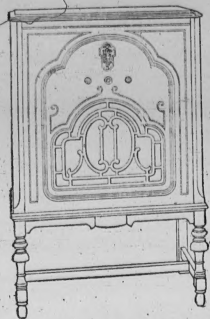

A necklace of bear claws, believed to have been worn by Chief Sitting Bull, has been received by the San Diego Museum.

Wife: "What did the doctor say after he had examined you?"  
Husband: "That there was not much wrong with me only that my heart had nearly stopped beating."  
— En Rolig Half Timma, Gothenborg.

## The New Triumph Marconi

### Batteryless Console

The performance of this new Marconi model sets a new high standard in the field of Batteryless Radio.

Powered with nine of the latest "AC" Radiotrons, it operates direct from the house lighting current, furnishing the sensitive selectivity and tone brilliancy that will satisfy the most critical.

Built into its handsome two-tone matched walnut cabinet is a Superb Dynamic Speaker, assuring a smoothness and a fidelity of reproduction over the entire musical scale. Rattle or distortion is pleasingly absent from reception even when operated at roomfilling volume.

Judged by any standard this new Triumph Marconi Batteryless is a Receiver the owner may well be proud of.

CONSOLE, Less Accessories ..... \$160.00

**P. J. Hardy, Dealer**

IRMA,

Alberta

Mr. New-Car Owner:

The valves are the "heart of the motor" in your new car and when you have registered about 2,000 miles the valves are thoroughly "cured", have taken their new shape under heat and are ready for a recondition by machinery.

At this mileage a valve inspection will show that there is a slight loss at each explosion, which if allowed to continue will burn both valves and seats, and you are consequently paying for power that does not reach your drive shaft.

This loss means a decrease in power of from fifteen to thirty per cent. A power decrease you should be enjoying instead of losing, and you are, therefore, paying for a valve recondition unknowingly.

Don't guess about this important matter of motor efficiency—bring in your car for a valve inspection.

—Yours for More Mileage.

## In Flanders Fields

In Flanders' fields, the poppies blow  
Between the crosses row on row  
That mark our place; and in the sky  
The larks, still bravely singing, fly,  
Scarce heard amid the guns below.  
We are the dead. Short days ago  
We lived, felt dawn, saw sunset glow,  
Loved and were loved, and now we lie  
In Flanders' fields.

Take up our quarrel with the foe!  
To you, from failing hands, we throw  
The torch. Be yours to lift it high!  
If ye break faith with us who die  
We shall not sleep, though poppies blow  
In Flanders' fields.  
Lt.-Col. John McCrae  
France, 1917.

## WHY POPPIES ASSOCIATED

### WITH WORLD WAR

In Roman mythology the red poppy was the symbol of Somnus, the god of sleep. For hundreds of years this flower has been associated with the battlefields of Western Europe, especially in Flanders, where it grows as a pest among wheat and in uncultivated fields. Poppies grow luxuriantly on battlefields in that section simply because such fields are torn up and then neglected for a year or two. Contemporary writers refer to the profusion of poppies which sprang up on the battle fields of Landen, Ramillies, Malplaquet, Fontenoy, and Waterloo. William of Orange and Luxemburg fought the bloody battle of London in the summer of 1693. The poppy became peculiarly associated with the battlefields as the result of the poem of John McCrae, Canadian physician, soldier and poet. "In Flanders Field" was written during the second battle of Ypres and was originally published in the issue of London Punch, dated Dec. 9th, 1915.

The poppy is the official memorial flower of the Canadian Legion. Heard at the schoolhouse Teacher: "Johnny, if you had worked hard and received five dollars for it, and then gave one dollar to each of your four playmates what would you have?" Johnny: "I think I would have my head examined."

## THE OLD CORNER STORE

'Twas a friendly place—  
but not always business-like.

If the efficient atmosphere of a modern up-to-the-minute grocery store were conducive to leisurely reminiscence, it would be a good place to ponder upon the revolutionary changes which have occurred in merchandising and distribution methods over the past two or three decades. No more effective realization of what those changes have meant can be had than by stepping into the modern store, surveying the surroundings and then recalling that store's predecessor of twenty years ago.

Where Grandmother with her basket and shawl bought a pound of coffee scooped up out of a barrel, Granddaughter asks for a package of a well-known brand.

The cracker barrel, the flour-barrel, the tins of tea and spices in bulk, the cider keg, of the old, dimly lit, untidy looking store of the past have disappeared and now there stands a trim and bright array of counters and cases and shelves, sparkling with neat multi-colored packages and cartons, on which the weight of the contents is marked and the quality guaranteed.

Even as the package has changed the interiors of stores, so has it changed a people's buying habits. The attractive form of the container, the color and design of the label do exert an astonishing influence on buyers' minds. Countless observations as to the results obtained from introducing new and up-to-date packages attest to this.

Indeed, there is much to support the contention that package is becoming as important as the product, for it is its picture which advertising time and again uses to strengthen a trade name a brand, and the good-will and consumer demand which has been gained.

Probably no greater evidence of the power of the package can be noted than the extension of its use for new and what would have seemed a few years ago unpackageable products—as bacon and bath towels, batteries and belts.

And the trend will probably continue.

## Household Hints

## "I MADE IT MYSELF"

A handsome antiqued writing portfolio makes a delightful personal gift for some friend who we know loves the artistic. Cut heavy quality parchment paper into a rectangle measuring 20 1/2 in. x 13 in. With a pencil, faintly indicate the line running through the centre of the parchment. To allow sufficient room between the covers to accommodate blotters and papers, the back fold must be half an inch wide. Therefore with a small knife or large darning needle scratch indelibly a line one-quarter of an inch on either side of the centre line. If an antiqued effect is desired, rub a little brown oil paint on the right side of the parchment making a somewhat blotchy effect, and allow it to dry. Having selected a print, colored or in sepia—a copy of some old master's work is preferable—give it one coat of shellac. Coat the parchment also with shellac. Paste the picture in the centre of the right hand section with glue. Scroll-like designs may then be added if desired, painted on in oils, or gold or silver mixed with banana oil. Next brush on three to four coats of varnish over the parchment and picture with a small bag allowing each coat to dry thoroughly before the next one is added. Now bend the two scratched lines, thus forming the folder with its half inch back. Cut two pieces of blotting paper one-half inch smaller all the way round than the parchment, bend these with quarter inch folds in the back. Place the blotting papers inside the parchment folder. Finish the portfolio with a half inch ribbon of gold or colored silk, pulled through the back fold, thus binding the blotter firmly to the parchment cover and tied in a bow in front. The approximate cost for this material with shellac to make this portfolio is \$1.33. Best quality parchment one half yard—60 cents. Two sheets of blotting paper at 10 cents per sheet—20 cents. One print, copy of old master's work, about 15 cents. These may be bought at art stores, or cut out of some first class magazine, or journal which contains some good reproductions. One and one-half yards of half-inch ribbon about 15 cents a yard—23 cents. White shellac—15 cents. If doing several portfolios it is cheaper to buy shellac at a hardware store by the pint.

## Handkerchief Sack

This charming ribbon-trimmed sack is just the thing any girl loves to place on her dresser, whether at home or on a visit. Two-thirds of a yard of dainty colored satin ribbon six inches wide is doubled and sewn together on the wrong side, forming a bag 12 inches long. On one side of this bag lightly attach a layer of cotton wool one-inch thick and six x 12 in. Sprinkle this with sachet powder, and turn the bag inside out. One end of the sack is open—turn it in and catch the ends together. Next, double the sack again and catch two of its sides together, on the wrong side, thus forming an envelope, six x six in. Shift slightly the yards of silver or gold edged taffeta ribbon. Commencing at one corner of the sack, half an inch from the edge, sew four rows of shirred ribbon around the sack and finish off each row separately. The rows of ribbon should be placed a little less than their width apart, so that they overlap slightly. Complete the sack with a sprig of French ribbon flowers, placed in the centre. The approximate price of the sack is \$1.24. Two-thirds yards six-inch satin ribbon at 50 cents a yard—34 cents. Five yards of gilt-edged taffeta ribbon half-inch wide, at 5 cents a yard—25 cents. Sprig of French flowers 50 cents. Sachet filling—15 cents.

## The French Doll

For your friend who is the possessor of one of those glass topped, taffeta flounced, French Table dressers, there is always the question of the correct ornaments to add to its dainty loveliness. There could be nothing more appropriate than a little French doll. Having chosen a china doll's bust, of dainty coloration and unblemished surface, attach it carefully to a wire skirt, with a fine picture frame. Next, cut the taffeta for the skirt, chosen with an eye to the colors used on the French dresser, twice the circumference of the bottom of the wire frame, and one and one-quarter inches longer than the measurement from the doll's waistline to the bottom of the frame. Join the ends of the taffeta to form a skirt, with a warm iron turn in, on the wrong side, a quarter-inch hem at top and bottom of skirt. Make two rows of stitching for shirring along the top of the skirt. Sew the marabou around the lower edge of the skirt. Place the skirt over the frame and shir it tightly around the waist of the doll. Marabou may be added elsewhere if desired, or a very soft and charming effect may be had if the entire skirt is made of marabou. The approxi-

## VIKING

A community Armistice Memorial Service will be held in the Elks Community Hall on Sunday, November 10th, at 3 o'clock in the afternoon. A program similar to the one given last year is being arranged and it is hoped that everyone as far as possible will attend this service which is a permanent institution all over Canada.

Veterans are asked to wear their medals and be at the hall promptly at three o'clock.

Local clergymen will be in charge, the orchestra will play, and Capt. Logan will sing an appropriate solo.

A grand ball will be held in the new community hall on Monday, November 11th, under the auspices of the Viking Elks Lodge. The Jolly Sparks orchestra will furnish music, and everyone, far and near, should take advantage of the holiday to come and enjoy the splendid dancing floor and mingle with the crowds that patronize the dances. Popular prices will prevail.

Plan to come to Viking for the Armistice and Thanksgiving social evening.

Maple Lodge Farm, one mile west of town, was the scene of a very pretty wedding at two o'clock on the afternoon of Wednesday, October 30th, when Vera Winnifred, eldest daughter of Mr. and Mrs. Geo. A. Loader, became the bride of Mr. Hugh Little, son of Mr. J. L. Little, of Prince Albert, Sask.

The room was beautifully decorated with flowers, the color scheme being pink and white. The bridal pair stood before an altar arranged in one corner of the room, under an arch of wedding bells and streamers. Seats were placed for the guests to the number of about fifty who witnessed the simple and impressive ceremony performed by Rev. A. Loydall-Bee, rector of the Viking Anglican church.

The bride, who was given in marriage by her father, was daintily attired in ivory crepe back satin trimmed with lace and flower hem. She also wore a veil and orange blossoms which were worn at her mother's wedding, and carried a bouquet of opelia roses. Her sister Violet was her only attendant, and wore a frock of peach crepe back satin and carried a bouquet of pink carnations. The bride's mother wore a gown of black crepe back satin, with corsage of roses.

The Halloween Frolic held under the auspices of ladies of the C. W. L. in the Elks hall last Wednesday evening proved to be one of the most outstanding social affairs of the year. The many costumes were some of the best seen here for a long time, the judging of which was a difficult task for the judges. The frolic drew a large crowd from this and neighboring communities all of whom enjoyed the evening's entertainment.

Prize winners were as follows: Ladies Best Dressed: 1st Miss Leonora Taylor, as old fashioned lady; 2nd Mrs. McKay, "Ramona." Ladies original costumes: 1st Mrs. Gravett and Mrs. Thunell as powder puff twins; 2nd, Miss Kay McGregor, "Question Mark."

Ladies best comic: 1st, Mrs. Clinton, "Bear"; 2nd, Mrs. Leeder, "washwoman."

Spot Dance, won by Miss Dorothy Jones.

Men's best dressed: 1st, Ken Hillier, Arab; 2nd W. E. McDonald, artist.

Men's best original: 1st Jas. Slayk, firecracker; 2nd Cliff Hoskins, Uncle Sam.

Men's best comic: 1st Chas. Broughton, Spark Plug; 2nd J. L. Clifton, tramp.

Halloween passed off in the usual manner last Thursday evening. The smaller children made up parties and had a jolly time making house to house calls with the greeting "tricks or treats," and the owners not wishing any tricks, came across with a smile. The larger boys waited until later and strewed Main street with various debris, and did other back alley performances, which to say the least, are vulgar for boys of the high type that we have in our community. The police succeeded in preventing much of this. One young fellow was injured in the leg as the result of his escapades. No real property damage.

Mr. and Mrs. A. Tegnander have moved to Kellihier, Sask. where they will make their future home. Mr. Tegnander's position here with the Reliance Lumber Co., is being filled by Mr. Metcalf, of Saskatchewan.

Nova Scotia voted in favor of government control of liquor sales last Thursday by a majority of 24,000. This leaves only Prince Edward Island without some form of government supervised sale of liquor.

mate cost of this doll is \$1.17. Requiring, one-sixth yard taffeta at \$1.50 a yard—27 cents. One wire frame for skirt 15 cents. China doll's head—25 cents. One yard marabou—50 cents.

## VIKING

A quiet wedding was solemnized at the home of Mrs. John Lokken on October 28th at 3 p.m., when her daughter Agnes was united in marriage to Mr. Helge Lefsrud, son of Mr. and Mrs. John G. Lefsrud, Rev. Boe of Viking officiated.

The bride looked lovely in a Rose beige Gorgeotte dress, while the bridesmaid, Julia Lokken, wore a pretty blue crepe.

The groom was attended by his brother Anthony Lefsrud.

Following the ceremony the guests partook of a delicious hot dinner served in the spacious dining room. A handsome wedding cake centred the long table.

Before returning to their homes the gathering of well-wishers spent an enjoyable evening in singing, recitations and impromptu speeches.

The young couple will reside on the groom's farm 11 miles north of town.

The Lutheran Ladies aid held a very successful sale of home work and chicken dinner last Saturday afternoon which was well patronized. The dinner was enjoyed by a great many throughout the whole neighborhood.

Mrs. Stephenson of Edmonton was in Viking to see her nephew Alan Stephenson who recently underwent an operation for appendicitis at the local hospital. While here Mrs. Stephenson was a visitor at the E. Solstad home.

Mr. and Mrs. W. McAtthey received word on Friday that Wm. Thom had died at his home at Russell, Man. Mr. Thom was a brother-in-law of Mrs. McAtthey, having married her sister, Miss Effie Buie, some twelve years ago, who will be remembered by many friends here who extend sympathy in her sad bereavement.

Mr. and Mrs. Bert Walters have been visiting with their daughter Mrs. Stewart at Turner Valley for a few days.

C. G. Purvis arrived home from New Westminster, B.C., on Monday where he had been to see his mother who has been very ill. Her condition, we understand, is not improved.

Dan Garvie, fifteen years old, received a fractured skull and other injuries as a result of being kicked by a horse while trying to lead it into the barn last Thursday.

R. K. Kennedy left Friday evening for Hawick, Scotland, where he will spend the winter months. Mr. Kennedy and daughter Miss Marjorie have spent the past year there.

G. W. Campbell is down from Edmonton renewing acquaintances.

Mr. and Mrs. W. Bissell were visitors in the City last week.

D. Christian, Geo. Taylor, Carl and John Carlson motored to Rocky Mountain House this week.

Among those called for jury duty at Edmonton this week are Chas. Broughton, A. Maguire and D. Sheets.

Melvin Backen and Palmer Hjeswold are leaving this week for Detroit, Michigan, to seek employment.

R. A. Zenger, jeweler of Holden, will be in Viking, November 11th and 12th in room rear of the Drug Store.

Born to Mr. and Mrs. Perry Dillane, on October 22nd, a boy, at Chu'a Vista, California. Mother and baby doing well.

Mr. and Mrs. D. Scott held an auction sale of their household goods on Saturday and are leaving shortly for their former home in Scotland.

Clem Loughlin left Monday morning for Toronto where he expects to join the Chicago professional hockey team for the season.

Lars Wollen will be leaving for Regina on Tuesday, November 12th to attend the United Grain Growers Convention.

At the Thanksgiving Day dance at the Elks Community Hall on Monday evening, November 11th, the following prices will prevail: gents \$1.25, ladies 60c, supper included.

On Saturday, November 9th, the ladies of the C.W.L. are holding their annual bazaar and home-cooking sale at the Town Hall, starting at 2 p.m. There will be on display, plain and fancy sewing, also farm products and home cooking. The ladies have been working devotedly for the past month or more, and have on hand a plentiful supply of work at very reasonable prices. Come early and you will have a better choice.

## BIRTHS AT VIKING

MUNICIPAL HOSPITAL  
To Mr. and Mrs. Geo. Levers, Minburn, a son, born October 14th.

To Mr. and Mrs. Ezra Dennison, of Jarrow, a daughter, October 26th.

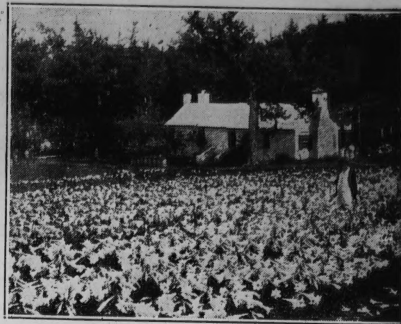

To Mr. and Mrs. Leonard Lawes, of Viking, a son, October 28th.

To Mr. and Mrs. Peter Peterson, of Viking, a son, October 29th.

To Mr. and Mrs. Chas. Ruzicka, of Viking, a son, October 31st.

The ladies of the C. W. L. wish to take this opportunity of thanking the many friends for their support and kind assistance and attendance at the frolic which proved to be such a success in every way.

## EASTER LILIES IN BERMUDA

Bermuda, where the Easter lilies come from, is on the route of the Canadian National Steamships West Indies service, which was inaugurated in December. The new steamers give a fortnightly passenger, cargo and mail service between Canadian Atlantic ports and the picture-que ports of the Spanish Main. The first vessel of the new fleet, which, when it is in full operation, will consist of five vessels, was christened "Lady Nelson." The others are also named after the wives of famous British seamen.—Canadian National Railways Photograph.

## How To Keep Young

Eat Less, Sleep More, Drink Water, and Laugh

An aged New York man, who has led a busy life, and a good one to boot, offered the following recipe on how to live long:

"When you get old, eat half as much, sleep twice as much, drink three times as much water, and laugh four times as much."

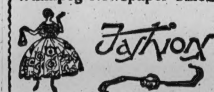

The advice is no doubt good. It recognizes the psychological factor as well as the material. Laughter is one of the most valuable emotions of humanity. It has a physical effect on the body by stimulating certain abdominal muscles, and it has a mental reaction which is a tonic to one's outlook on life.

People growing old, who have not the physical capacity for enjoyment and recreation that they once had, are inclined to sit down and dwell on the past and to contemplate the future somewhat morbidly. The way to keep young while growing older is to read light or amusing literature and to associate with people who have cheerful natures.

As for the other items of advice, it would be well if all young or middle-aged people ate less than they do, slept a bit more and drank more water.

Watch your eating, drinking and sleeping and you will continue young until you are quite old.

## Winnipeg Newspaper Union

CHIC SEMI-SPORTS TYPE

A swagger dress for semi-sports wear is sketched in army-blue canton crepe. It affects Princess all-bouffé through molded bodice, that buttons at left side, giving the figure length. The surplus closing also detracts from the width, by softening its line with a collar with pleated ruffle. Long tight fitting sleeves have turn-back pleated cuffs to complete this smart lingerie note so important in mode.

It will prove a lovely addition to your new wardrobe, and the small cost will surprise you.

Style No. 729 comes in sizes 16, 18, 20 years, 36, 40 and 42 inches bust.

Feather-weight tweed in tiny check or diagonal stripe is very attractive in beige and brown, mauve-red or plum shade.

Goya red kashmir jersey or navy blue wool crepe is smart for classroom. Printed jersey also chic.

Black crepe satin is serviceable for general occasions.

Printed novelty rayon crepe, canton crepe in petunia shade, faille silk crepe in hunter's green and crepe Maroon, in tobacco brown fashionable.

Pattern price 25 cents, in stamps or coin (coin is preferred). Wrap coin carefully.

## British Industries Fair

Canada To Be Well Represented At Fair To Be Held February 17 To 28th

The Deputy British Trade Commissioner announces that the sixteenth annual British Industries Fair will be held next year from February 17th to 28th, inclusive, at London and Birmingham, England. The two sections are complementary to one another, the whole forming the British Industries Fair.

The London section of the fair, which is organized by the British Government Department of Overseas Trade, will be held for the first time in its new home at Olympia. Canadian buyers who have visited the fair in the past will remember that for the last few years it has been held at the White City, in London. Owing to the growth of the fair it has been found that the White City buildings are not now suitable. It has therefore been decided to move the fair to Olympia, which is being especially enlarged for the purpose by the addition of a four-story building. The new building will not actually be completed until the 1931 fair, but two floors, in addition to the existing building, will be ready for occupation by February, next. By means of bridging the galleries and other reconstruction work, there will be ready for the forthcoming fair a large two-story building which is believed to be the first of its kind and size in the United Kingdom. Up to the 12th of August last, 800 United Kingdom manufacturers had applied for space at Olympia. Although no definite number is available, it is believed that the applications for space at Birmingham have been made by approximately 500 firms.

The Empire Marketing Board, which is organized under the auspices of His Majesty's Government, will again stage a representative exhibit of food products of the Mother Country, the Dominion and Colonies, and also of the raw materials of the Empire. This exhibit will be given a prominent position on the ground floor of the existing main hall at Olympia. In addition to this there will be a separate exhibit by the Canadian Government, and it is anticipated there will be a representative Canadian Manufacturers' section.

Many Canadian buyers are expected to visit this great national fair. The most prominent British firms in all lines of manufacture will be exhibitors. The exhibits are grouped by trades, so that a buyer can go to any section in which he is interested and inspect it without wandering over the whole of the fair building to discover any particular article or firm.

Canadian buyers who visit the fair each year have on numerous occasions drawn attention to the time which they have saved by a visit to the fair. By such a visit they avoid the necessity of having to travel over the United Kingdom to purchase from the various manufacturers in whose goods they are interested. The schedule of exhibits in both the London and Birmingham sections covers practically every article of United Kingdom manufacture. Full information can be obtained from the British Trade Commissioner, 703, Royal Bank Building, Winnipeg, who will be glad to issue invitations on behalf of the British Government to business men who contemplate making the trip.

## Research Work Necessary

The investigation of deposits of natural sodium sulphate (Glauber's salt), in Western Canada, by the Mines Branch, Department of Mines, has proven up tonnage of hydrous sodium and magnesium sulphates in excess of 100,000,000 tons. The nature of the salts is such that a large amount of research and experimental work in semi-commercial and commercial plants is necessary in order to devise proper methods of harvesting and drying the salts.

## Control Of The Corn Borer

The European corn borer is being brought under control in Ontario, and the grain corn industry is being re-established in the province. The corn borer was first discovered in Canada in 1920. During 1924, 1925, and 1926, it had spread to such an extent that some corn fields had 400,000 borers to the acre. Today, systematic control campaigns, under the Department of Agriculture, have resulted in the re-establishment of the crop.

Alaska can produce 1,500,000 cords of pulpwood annually which can be converted into 1,000,000 tons of newsprint or more than one-fourth of the present yearly consumption of the United States.

"What I want to see," said the girl who didn't receive even honorable mention at the beauty contest, "is a group photograph of the judges' wives."

## Extra Rich Milk Is Used In Famous Bohemian Cake

Practical foreign recipes are always of interest to the housewife anxious to vary the menu. This molasses cake is decidedly different, and yet is easily made—if you have extra rich milk on hand. Borden's St. Charles is particularly satisfactory, because it is twice as rich as ordinary milk, taking the place of cream in a cake of this kind. It never varies in quality; consequently you can count on uniform results in every kind of cooking.

## Bohemian Molasses Cake

- 1/2 cup butter.
- 2 cups sugar.
- 1 cup molasses.
- 1 cup black coffee.
- 2 eggs.
- 1 teaspoon baking soda.
- 1/2 cup Borden's St. Charles Milk.
- 2 cups flour.
- 1 teaspoon ginger.
- Cloves.
- Cinnamon.
- Allspice.
- 1/2 lb. raisins.

Cream together half a cup of butter, a cup of sugar, a cup of molasses, half a cup of black coffee, two yolks of eggs, and a teaspoon of baking soda, dissolved in one-half cup St. Charles Evaporated Milk. Then add two cups of flour, a teaspoon of ginger, a dash of cloves, cinnamon and allspice, also half a pound of raisins, if desired. Bake rather slowly.

When done and cool, cover with icing as follows: Beat the two whites, pour into them, beating constantly, syrup made by boiling a cup of sugar with a fourth of a cup of Borden's St. Charles Milk.

## Collecting Christmas Seals

Within the last few years stamp collectors, not content with the increasing number of new postage stamps issues, have added another item, Christmas seals, to their lists. As time goes on the Christmas seals are said to be increasing rapidly in value, although age does not always determine their worth.

## Saskatoon Power Plant

Construction work on the new power plant at Saskatoon, being built by the Provincial Government, at a cost of \$2,000,000, is going forward rapidly, and it is expected to be finished by November 15th. This new plant is said to be the most modern in the Prairie Provinces.

## 'Plane Crossing Channel Runs Into Waterspout

Passengers Terrified But Pilot Managed To Keep Clear

Halfway across the English Channel recently, the pilot of a French passenger aeroplane saw he was heading directly into a water spout. He was flying low beneath storm clouds in a half gale of wind, when suddenly a column of sea, lashed by a whirlwind leaped upward almost beyond the cone of a spinning black cloud which formed a funnel from the lowering sky.

By deft movements of the controls the pilot managed to keep the aeroplane clear of the vortex, but not before the machine had been thrown about in all directions and passengers terrified.

The machine left Paris piloted by M. Codos. Seven of the passengers were women. Owing to low clouds it flew over the Channel at a height of only 500 feet, but even then was continually passing through them.

When in mid-Channel passengers saw only 200 yards away, a great circle of sea beaten up into white foam and revolving at high speed. In the middle the surging waves were rising toward a funnel of dense black clouds, spinning fiercely and falling toward the sea. As soon as the pilot saw the waterspout, he wrenched the machine around. He had a tremendous task to keep it under control, as he was actually at the edge of the disturbance. He got the machine safely away, but the travellers were violently thrown about and every body was ill.

As soon as the pilot cleared the disturbance he sent radio telephone messages warning shipping and other aircraft of the danger.

## Taking No Chances

Scotch Servant Would Not Risk Loss Of Silverware

Many amusing anecdotes are to be found about the "canniness" of the Scot, and this tale is related concerning the experience of a certain Mrs. Murray. "Mrs. Murray, of Abercromby had been amongst the guests, and at dinner one of the family noticed she was looking for the proper spoon to help herself with salt. The old servant, Thomas, was appealed to, that the want might be supplied. He did not notice the appeal. It was repeated in a more peremptory manner: "Thomas, Mrs. Murray has not a salt spoon," to which he replied most emphatically, "Last time Mrs. Murray dined here we lost a salt spoon."

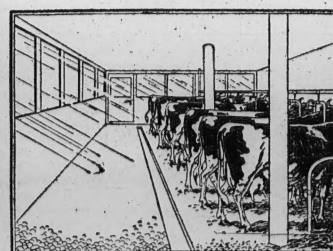

## Polar Bear Favourite At Banff

One of the greatest favourites of visitors to Banff National Park, is the polar bear in the Zoo. He was brought down as a tiny cub from near Herschel Island, in the Canadian Arctic, by an officer of the Royal Canadian Mounted Police.

Johns Hopkins University opened in 1876 with 89 students. Today there are more than 1,800.

## WINDOLITE The Improved Glass Substitute

MADE IN ENGLAND

**WINDOLITE** stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunroofs, verandas, schools, factories, hospitals, nurseries, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. **WINDOLITE** is supplied in rolls any length but in one width of 36 inches only. A square yard of **WINDOLITE** weighs about 14 lbs., while a square yard of glass of ordinary thickness weighs about 130 to 160 lbs. The improved **WINDOLITE** requires no varnish. **WINDOLITE** is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

Use **WINDOLITE** and let

## Magnesia Best for Your Indigestion

Most people who suffer, either occasionally or chronically, from gas, sourness and indigestion, have now discovered disintegrable, digestible, harmless, stomach tonics, medicines and artificial digestants, and instead, take a little **Magnesia** after meals with the result that their stomachs no longer trouble them, they are able to eat as they please and they enjoy much better health. Those who use **Magnesia** never dread the approach of meal time because they know this wonderful anti-acid and food corrective, which can be obtained from any good drug store, sweetens the stomach, prevents food fermentation, and makes digestion easy. Try this plan yourself, but be certain to get **Magnesia** especially prepared for stomach use.

## Test Was Successful

Flying Boat Made Hour Flight With 169 People

D.O.-X, huge 12-engined flying boat, which was launched at Althenheim, Switzerland, last July, has made an amazing one-hour flight with a human load of 169, the first time in the history of aviation that so many persons have been carried into the air on any conveyance. The machine flew over Lake Constance, her motors working perfectly. The D.O.-X carried 159 passengers and a crew of 10.

The flying boat, which may be used for a trans-Atlantic crossing for the purpose of trying out her capacities, was built in the greatest secrecy. She was designed to carry 40 passengers normally, but has accommodation for 100 if necessary. Her 12 engines can develop a total of 6,000 horsepower and each engine can be treated individually without affecting its neighbors.

The D.O.-X measures 150 feet from tip to tail. Its wings are 10 feet thick and 150 feet from wing tip to wing tip. Six great gun turrets project from each wing and each turret is equipped with two engines of 500 horsepower. The turrets are manned by mechanics who walk along a passage on the inside of the wings from one turret to another.

When the D.O.-X was launched, last July she cost 24 tons of weight, and was able to get into the air with the greatest ease after a take-off run of only 500 yards. Other trials were similarly successful.

One of the features of the 'plane is her three decks, while another is that the machine can fly with only eight motors in use.

Dr. Dornier built the 'plane at Althenheim, on the Swiss side of the German-Swiss frontier, because of the limitations on German aircraft imposed by the treaty of Versailles.

A spider has eight legs and from six to eight eyes.

## Ever Try This?

The greatest remedy for sore throat, whooping cough, colds, influenza, croup, head colds and tonsilitis. Good results at once. The only one that costs only 25c. Post paid. Agencies wanted. **KITCHENER TONISILIS CO.,** Kitchener, Ont.

## Chew and Grow Thin

You know that certain foods furnish body energy without adding uncomfortable fat.

Sugar is one of these foods, supplying needed energy in concentrated form.

WRIGLEY'S gives you sugar and flavor. These ingredients dissolve in your mouth.

What pleasanter way of taking sugar?

## The Singing Fool

By HUBERT DAIL

Copyright, 1928, Warner Bros. Pictures, Inc.

### SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club wins fame as a composer of popular songs. He marries Molly Winton, a ballad singer, and makes her famous too. Molly and Al have a baby, Junior, whom Al adores. When Junior is about two years old Molly elopes with John Perry, Al's best friend, taking the baby. For a week there is no trace of them. Al, completely broken by the blow, visits his partner Billy Cline, at the Club Bongo, and declares he must sell out. He is through with Broadway. Just then Al learns from a newspaper article that Molly is at a New York hotel, preparing to sail for France that afternoon. He rushes to the phone.

### CHAPTER XIX.

"No," said Molly to the maid, "you go on packing—I'll answer."

She picked up the receiver to hear Al's voice.

"Molly, is this you? Is it true you're sailing today?"

Molly's eyes grew cold as she took a look of intense irritation crossed her face. She turned to Perry, putting her hand over the transmitter, and whispered, "It's Al."

Perry started, then Molly answered into the phone.

"Yes, it's true. I decided to sail today."

"The full force of her cold determination was conveyed to Al in those words. But his voice came vibrating back against her ear.

"Please, Molly, you must let me see Junior before he goes. That's all I ask—you won't refuse that?"

Again Molly signaled quickly to Perry, pointing to Junior. The racketeer jumped up—so Al was trying to spoil their game! Perry made a quick gesture of disapproval and Molly turned back to the phone.

"There's hardly time," she said, "We're leaving shortly."

Then it seemed to her that Al's voice hardened a little, too.

"The boat sails at six Molly—that gives you time. Remember you've taken Junior from me—and you know what he means to me! He's the only thing I have left to live for. I'll be with him only a few moments—you must grant me that!"

Al waited in an agony of suspense. While Molly did some quick thinking. She knew Al could make trouble for her if he wanted to do it. She didn't think he would, but if she refused this last request he might suddenly turn ugly toward her. She decided to conciliate him. Besides, for a wonder, she suddenly felt just a trifle sorry for him. After all, he had been an awfully good sport during the three years of their marriage, and he did adore Junior.

"Then she became aware of Perry's agitated figure; he was pacing up and down in front of her, fidgeting for her to refuse. But she turned to him and said in low firm tones.

"We must do this for him, John. It won't hurt us. And he's been so decent to me."

Perry made a reluctant gesture of acquiescence.

"Do as you like. But you can't afford to have him come here."

"No, of course not." She turned back to the phone. "I'll have Junior at the 96th Street entrance to the Park in half an hour."

As Al heard her crisp good-byes his face was illuminated with joy at the prospect of seeing his son. It would only be a few moments, but it was something—to hold Junior close once more and hear his baby voice.

Al glanced at his watch, then remembered Billy Cline, who was waiting mutely nearby.

"She consents, Billy! I'm to see Junior in half an hour! Now I must hurry along."

Cline wrung his hand and Al picked up his hat and coat.

"We'll go over these accounts later," called Cline as Al hurried away, but Al gave only a hurried wave of the hand in agreement. His thoughts were concentrated on the meeting with his son.

Cline looked after him, shaking his head sadly. It seemed to him that the downfall and complete collapse of Al Stone was imminent all because of Molly.

"If I were in Al's place," thought Billy, "I'd certainly try to nab that woman at the boat and get the child back. But no, he won't do it. He thinks how it might put a stigma on the baby. And I think he loves Molly too much, even now, to do it."

The night club owner gave a slight nod at his desk, and began to go over the accounts of the Club Bongo.

Al Stone, singing waiter at Blackie Joe's New York night club wins fame as a composer of popular songs. He marries Molly Winton, a ballad singer, and makes her famous too. Molly and Al have a baby, Junior, whom Al adores. When Junior is about two years old Molly elopes with John Perry, Al's best friend, taking the baby. For a week there is no trace of them. Al, completely broken by the blow, visits his partner Billy Cline, at the Club Bongo, and declares he must sell out. He is through with Broadway. Just then Al learns from a newspaper article that Molly is at a New York hotel, preparing to sail for France that afternoon. He rushes to the phone.

"No," said Molly to the maid, "you go on packing—I'll answer."

She picked up the receiver to hear Al's voice.

"Molly, is this you? Is it true you're sailing today?"

Molly's eyes grew cold as she took a look of intense irritation crossed her face. She turned to Perry, putting her hand over the transmitter, and whispered, "It's Al."

Perry started, then Molly answered into the phone.

"Yes, it's true. I decided to sail today."

"The full force of her cold determination was conveyed to Al in those words. But his voice came vibrating back against her ear.

"Please, Molly, you must let me see Junior before he goes. That's all I ask—you won't refuse that?"

Again Molly signaled quickly to Perry, pointing to Junior. The racketeer jumped up—so Al was trying to spoil their game! Perry made a quick gesture of disapproval and Molly turned back to the phone.

"There's hardly time," she said, "We're leaving shortly."

Then it seemed to her that Al's voice hardened a little, too.

"The boat sails at six Molly—that gives you time. Remember you've taken Junior from me—and you know what he means to me! He's the only thing I have left to live for. I'll be with him only a few moments—you must grant me that!"

Al waited in an agony of suspense. While Molly did some quick thinking. She knew Al could make trouble for her if he wanted to do it. She didn't think he would, but if she refused this last request he might suddenly turn ugly toward her. She decided to conciliate him. Besides, for a wonder, she suddenly felt just a trifle sorry for him. After all, he had been an awfully good sport during the three years of their marriage, and he did adore Junior.

"Then she became aware of Perry's agitated figure; he was pacing up and down in front of her, fidgeting for her to refuse. But she turned to him and said in low firm tones.

"We must do this for him, John. It won't hurt us. And he's been so decent to me."

Perry made a reluctant gesture of acquiescence.

"Do as you like. But you can't afford to have him come here."

"No, of course not." She turned back to the phone. "I'll have Junior at the 96th Street entrance to the Park in half an hour."

As Al heard her crisp good-byes his face was illuminated with joy at the prospect of seeing his son. It would only be a few moments, but it was something—to hold Junior close once more and hear his baby voice.

Al glanced at his watch, then remembered Billy Cline, who was waiting mutely nearby.

"She consents, Billy! I'm to see Junior in half an hour! Now I must hurry along."

Cline wrung his hand and Al picked up his hat and coat.

"We'll go over these accounts later," called Cline as Al hurried away, but Al gave only a hurried wave of the hand in agreement. His thoughts were concentrated on the meeting with his son.

Cline looked after him, shaking his head sadly. It seemed to him that the downfall and complete collapse of Al Stone was imminent all because of Molly.

"If I were in Al's place," thought Billy, "I'd certainly try to nab that woman at the boat and get the child back. But no, he won't do it. He thinks how it might put a stigma on the baby. And I think he loves Molly too much, even now, to do it."

The night club owner gave a slight nod at his desk, and began to go over the accounts of the Club Bongo.

to himself, out of earshot of the nurse-maid. There she was pacing up and down beside the car, keeping a sharp eye on Junior and his father.

"She's been told to watch me," told I might steal him," thought Al.

How pink Junior's cheeks were and how lovely his curls, escaping in profusion from under his funny little Breton cap. He sat with his tiny, sturdy legs, in leather leggings, spread far apart, studying his father's expression, as if seeking the answer to some question that was bothering his baby mind. Yes, there was something about Junior, a sudden gravity, that convinced Al he knew vaguely that all was not well with the Stone family. It was just a feeling with Junior and he had no words that really expressed it, but he said soberly:

"Daddy, I've missed you lots."

"Have you, Junior?"

"Yes, I have. I wish you was going to see me."

Al turned his face away quickly, as if he were studying intently something far down the street. He didn't want Junior to see his expression of extreme unhappiness, and for a moment he could not speak. But as he gained control of himself he said:

"Do you, Junior? So do I. You can't know how much daddy longs to go with you."

"Why can't you go, then?"

Again the sudden staring down the street and the quick return of daddy's warm, loving eyes.

"Because, Junior, well, it's something you wouldn't understand. You'll never know some day."

"You'll never forget daddy, will you?"

"You'll never forget that daddy loves you every moment and thinks of you and sings to you."

"Never," said Junior, with the certitude of a grown person and a solemn wag of his head. Then he asked:

"Do you feel bad, daddy?"

Al stiffened his quivering lip and managed to summon a smile.

(To Be Continued.)

Many children die from the assaults of worms, and the first care of mothers should be to see that their infants are free from these pests. A vermifuge that is depended on is Miller's Worm Powders. They will not only expel worms from the system, but act as a health-giving medicine and a remedy for many of the ailments that beset infants, enfeebling them and endangering their lives.

## Makes Study Of Indian Languages

Finds Indians Of Northern Canada Have Speech Similar To Navajos Of Arizona

"Believe it or not," but there is a definite language connection between the Hare Indians of Chipewyan and Fort Good Hope, and the Navajo Indians of Arizona.

At least this is the considered opinion of Dr. F. K. L. graduate of the University of Chicago, and an expert in the gentle art of comparative philology—this latter subject being the study of various languages in reference to one another.

Incidentally, there is a touch of the international in the fact that Dr. L. of Chinese parentage, should be studying Indian languages in Canada for an American university, but there is nothing particularly remarkable in this, since the Chinese have for ages been considered among the best students of languages.

Dr. L., this year, has completed three years' study of the language of the Hare Indians of the north, including an intensive study of the various dialects. All last summer he camped with the tribes in and around Fort Chipewyan and Fort Good Hope, and though he may be keenly interested in the Hare Indian language, he hasn't seen anything to arouse his admiration of the Hare Indian as such.

Advocates Washable Suits

Suits which can be taken off and washed when dirty are advocated for men by Professor Leonard Hill. "It would be a valuable reform if men took to washable outer garments," he said in a presidential address to the conference of the Sanitary Inspectors' Association. "Woman has reduced her clothing—half washable—to a weight of two or three pounds, while man continues to over-clothe himself with three or four times that weight."

## Restoring the Dead To Life

Australian Scientist Exhibits Remarkable Device At Medical Congress

An Australian scientist has exhibited a device before the Sydney Medical Congress which has restored persons apparently dead. Curiously enough, it is a needle which stimulates the heart muscles with electricity. Whether that will help lead to the solution of life in terms of electricity remains to be seen.

Death, science now teaches us, is intangible. Radio researches have led to a development where the action of nerves can be registered. With that approach via electricity, it is only a matter of time till their energy can be computed in mathematical terms.

Hence, if results are indicated, the research continues into the dispenser of this energy which means life: into the "power house" relations of the digestive functions, the metabolic processes, the heart, brain, glands and spinal nerve bases. Specialists in these various functions have made amazing discovery. To correlate these discoveries may lead to something more amazing.

Life, we used to be taught is God's secret. But God has no secrets. Our whole conception of Deity is in terms of revelation. Man already knows the spark of life has some relation to the ceaseless, tremendous electrostatic energy of ether. He may not attain immortality. But he has an excellent chance of broadening into a more glorious realization of life already given him.—Vancouver Sun.

Many Lose Their Dignity and Become Quite Commonplace.

Foreign names of musicians and composers always seem to be somewhat imposing and sonorous. When they are Anglicized they appear to lose much of their dignity, and become quite commonplace.

Giuseppe Verdi becomes in English Joseph Green, Wagner becomes Cartwright. Bach becomes Brook, and Weber, Wewer. Some names are less common when translated, and while Strauss, or Straus, is in some of the commonest names in Germany, its translation is Nosegay, which is quite unknown here. Handel means trade or commerce; Haydn, heather; and Himmel, heaven; Loewe is lion; Cherubini, a little cherub; Rossini, the small red one; Schumann, shoe man, presumably the cobbler; Schenker, beautiful mountain; Tietz Mattel was simply Timothy Matthews, or he would have been so had he been an Englishman with an English name.

Little Helps For This Week

"And now I exhort you to be of good cheer."—Acts xviii, 22.

Make me as one that casteth not by day. A dreary shadow, but reflecting rays. One little beam, loved, warmed, and golden caught.

From the bright sun that lights our daily way.

You find yourself refreshed by the presence of cheerful people; why not make earnest efforts to confer that pleasure on others? You will find the battle is gained if you will never allow yourself to say anything gloomy.—Lydia M. Child.

Giant British Airship

Trials Of The R-101 Said To Be Most Successful.

Great Britain's giant new dirigible, R-101, largest in the world, has been granted her "air worthiness" certificate after her successful 300-mile flight.

The anxiety which was felt in many quarters about her navigability, before she went into the air, is said now to be entirely dispelled. The experiments made in her construction are considered a success.

It was stated that the initial trip was probably the most economical ever made by a dirigible so far as gas is concerned.

Experts looked forward to flight soon of the R-100, sister ship, and comparable to the R-101 in size and probable performance.

Turner Valley Oil Wells

There about 50 separate oil well operations under way in the Turner Valley in addition to 20 producing wells, the latter having a monthly output of 122,000 barrels, valued at in excess of \$5,000,000 per year. The monthly payroll of the 1,110 men employed runs to \$250,000.

Increase Port Facilities

The city authorities of New Westminster, B.C., are applying to have the deep sea ship channel from the city to the sea deepened sufficiently to meet the requirements of any ship operating on the Pacific.

Corns cripple the feet and make walking a torture, yet sure relief in the shape of Holloway's Corn Remover is within reach of all.

Student—"I'm afraid I can't pay my bill—this week!"

Tailor (coldly)—"That's what you told me last week!"

Student—"Well, haven't I kept my word?"

Waste Land Scarce

Very Little In Canada Which Is Really Unproductive.

The announcement that the Dominion Government will attempt the breeding of reindeer in the so-called barren lands makes one wonder if there is any land in Canada that can be set down as barren or waste. Step by step we have seen our unproductive areas converted into sources of wealth for our people.

The rock-bound waste of our northernmost Chinooks of Canadian territories, is now a petted princess, the pre-Cambrian area.

The wall of mountains between the western plains and the Pacific slope is rapidly becoming one of the world's greatest tourist areas.

And now we propose to establish a reserve food supply on the tundra of the Arctic fringe.

Truly there is no waste land in Canada.—Financial Post.

Empress Hotel To Be Enlarged

Appropos of the increasing popularity of Victoria as a winter resort it is officially reported that the new 280-room wing of the Empress Hotel will be complete in all details before Christmas—probably by December 15th.

Use Minard's Liniment in the Stables.

Red Rose Tea comes direct to us from the finest tea gardens, then straight to your grocer—brimful of flavor and freshness. Every package guaranteed.

RED ROSE ORANGE PEKOE is extra good

In the best package—Clean, bright aluminum

Anglicising Foreign Names

Empress Hotel To Be Enlarged

Appropos of the increasing popularity of Victoria as a winter resort it is officially reported that the new 280-room wing of the Empress Hotel will be complete in all details before Christmas—probably by December 15th.

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkali, effective, yet harmless. It has been the standard antacid for 50 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet, the pain de-

parts. You are happy again in five minutes.

Don't depend on crude methods. Employ the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

## Main Street

Mr. F. Lukin left the first of the week to visit his old home in I lino. Mr. Ted Bereth left the first of the week for a hunting trip west of Edmonton.

Mr. J. W. Millum left Thursday for Ontario where he expects to spend the winter with his brother. Eight cars of cattle and one of horses were shipped from Irma this week.

Around 80,000 bushels of grain is waiting shipment in the Irma elevators.

Mr. Thornglad, who has been working for Mr. J. Russell has returned to his former home in Sweden.

The C. N. R. are distributing 100 lb. steel rails between Jarrow and Wainwright.

Mr. I. S. Reeds, teacher in the Irma Consolidated High School is attending the teachers' convention at Edmonton this week.

Mr. J. Sibbald, travelling representative for the Cunard Steamship Line made a business trip to Irma the first of the week.

Mrs. Maybee who has been visiting with her daughter Mrs. H. Osterhout, returned to her home in Toronto on Thursday.

Miss Allan who has been visiting with her sister Mrs. A. E. Foxwell, left for her home in Winnipeg Thursday.

The Ladies Aid of the United Church will meet with Mrs. Locke on November 14th. All ladies in the district are invited to attend.

Word received from Mrs. Smallwood saying she is gaining rapidly after an operation in Royal Alexandra hospital, Edmonton, and expects to be home on Saturday.

Wednesday the temperature turned colder and the thermometer reached zero point early in the morning but warmed up as usual during the day. To date we have had no snow.

Mr. C. A. Riley, returned Thursday from his old home at Baldwin, Kansas, where he was called on account of the death of his mother. Mr. Riley reports having passed through snow in several districts of Manitoba and Saskatchewan.

After several weeks delay on account of the difficulty in securing water supply, drilling has commenced at Beaumont well No. 2 ten miles east of Irma. This we understand is to be a deep test and everything is in good shape to make fast time.

Commencing this week we are advertising special low fare excursions to Eastern Canada and Pacific Coast points. Parties contemplating taking a trip this winter should consult Mr. J. R. Whyte, local C.N.R. Agent at Irma.

Dr. Murray has sold his practice at Irma to Dr. C. Greenberg, formerly of Edmonton, who has moved in the house formerly occupied by Dr. Murray. Dr. Murray is relieving Dr. McBride of Hardisty who is away on a vacation and intends to locate at Lougheed after Dr. McBride returns.

Tuesday Mr. H. Kasten, B. Yates and Mr. Grant left for a deer hunt north and west of Edmonton, and Thursday another party consisting of J. A. MacDonald, P. J. Harvey, A. D. Harvey, Jas. Harvey, J. A. Bell, Roy Brown and David Bacon started out on a big game expedition. Both parties went by motor truck which they expect to use to bring back the game.

Several of the Irma I.O.O.F. members have been attending the opening exercises of the new Oddfellows Lodge Room at Wainwright this week. Wednesday evening the members of the Irma Lodge put on the initiatory degree when a number of new candidates were initiated into Wainwright lodge. The new Oddfellows home is a credit to Wainwright and is much better than is used by many of the City lodges.

### NOTICE TO HUNTERS

Parties hunting on, or damaging fences on the following lands will be prosecuted: N.E. 19-44-9-wth; S.E. 30-44-9-wth; W. Half 20-44-9-wth; N.E. 20-44-9-wth; W. Half 21-44-9-wth. — Jas. A. Bell, Owner. 4-8p

### NOTICE

Sunday next November 10th being Armistice Sunday there will not be any Anglican Services in Irma but there will be a United Service of the Churches in Wainwright at 3 p.m.

### NOTICE

The members of the Anglican Church wish to thank all the artists who made the concert and dance on Monday night such a wonderful success, especially those who travelled long distances in such a cutting wind. The next W. A. meeting will be held at the home of Mrs. F. Higginson at 2:30 p.m. Every lady cordially invited.

It is reported that the man who won't take a paper because he can borrow one, has invented a machine with which he can cook his dinner by the smoke of his neighbor's chimney.

Whatever your plans for the future, the strongest foundation upon which to build is systematic saving in the bank.

THE Bank of Montreal offers safety, convenience and compound interest for those who build up their savings accounts here.

## GREAT LOCOMOTIVES FOR WEST

The Canadian National Railways have placed in service on main line runs between Winnipeg and Edmonton, a number of "Mountain Type" passenger train locomotives. These are the largest locomotives ever used on the prairies and they make the entire run between Winnipeg and Edmonton without change. This is a distance of 801 miles. They are capable of hauling a train of 18 steel passenger cars at an average speed of 60 miles per hour.

The locomotive with tender weighs 540,000 pounds.

It has a tractive effort of 50,000 pounds, and the boiler pressure is 250 pounds to the square inch. The diameter of the cylinders is 24 inches, with a 30 inch stroke. There are eight driving wheels with a diameter of 73 inches each. The tender carries 9,500 imperial gallons of water and 15 tons of coal. The photograph shows the first of these locomotives to be used in the west. An idea of the height of the locomotive is to be had by comparing it with the boys standing on the pilot.
